# Welcome to Site Safe NZ

***“Your industry led construction health and safety organisation.”***

Site Safe is a ‘not for profit’ incorporated society, established in 1999. Site Safe’s Mission is to promote and advance a culture of safety in the construction industry to reduce the number of deaths and injuries on construction sites.

We collectively work with, and support our members and the industry, to achieve site safety. We provide a wide range of health and safety solutions including:

- training
- regular safety information
- consultancy services
- auditing
- benchmarking and accreditation

Achieving a safety culture involves advocacy, and creating an awareness of the consequences and costs of injuries. Site Safe works with many stakeholders across the industry, and with central government agencies.

## ***Our Vision***

*Site Safe is the leading advocate for improving the culture of safety in the construction industry.*

## ***Our Mission***

*To promote and advance a culture of safety in the construction industry.*

# Membership & Benefits

As a member, you receive benefits, and visibly support the work to reduce deaths and injuries across the industry.

Membership provides access to quality training and consultancy services at discounted prices. Discounts on training relate to the number of years of membership; for example, discounts of 30% are available with 5 years plus membership.

Your membership also provides free access to health and safety guidelines, site safety management plans, ready made toolbox talks, plus regular newsletters and other important safety information.

## **As a member you will receive the following benefits:**

- Instant recognition of your commitment to safety.
- Safety training at a reduced cost (discounts are related to length of membership). Training suite includes Passport level training, and higher level training such as Supervisor Gold Card and Height and Harness Safety.
- Safety consultancy services (at members discounted rates as above) from Site Safe's nationwide Safety Advisor team.
- Free electronic copies of each of the Site Safe Guidelines.
- A Certificate of Membership, demonstrating your commitment to workplace safety.
- Use of the "Site Safe" logo for marketing purposes – on your stationery, advertising, tender documents.
- Access to over 50 Toolbox Talks on our website.

- Site Safe awareness posters for your site, and member stickers for your vehicles.
- Quarterly members E-Newsletter 'Safety Insite' plus 'E-Alerts' to keep you updated on the latest safety issues.
- Free copies of several industry magazines.
- Access to construction site injury statistics gathered by the Site Safe team.
- Members and others who have used Site Safe's training have access to discounted safety products from safety store: EquipSafety.

# Our Products & Services

*“Your tools for a safer industry”*

Site Safe offers a range of products and services to help members, and the wider construction industry, create safe sites. Products are developed with Site Safe’s collective safety approach and industry stakeholders, including its membership base, to reflect best practice in health and safety. Where necessary, health and safety solutions can be tailored to meet the requirements for specific sites or hazards.

Site Safe’s product and service range involves training from foundation

Construction Passports, to higher level courses, to the Certificate in Construction Site Safety qualification.

Site Safe’s Safety Advisors offer a nationwide safety consultancy service covering critical health and safety functions and requirements; such as, preparing site specific safety plans.

A safety auditing service complements health and safety systems and provides benchmarking to support on-going effectiveness of your site’s safety systems.

## Training

- Construction Passports
- Advanced Passport
- Higher level courses
- Management / Executive Level courses
- Certificate in Construction Site Safety

## Consultancy

- Health and Safety Project Management
- Safety Management Systems
- Site Specific Safety Plans
- Health and Safety Technical Advice
- Coaching and Mentoring

The Safety Advisor team operates nationally, and is able to deliver the products and services in this booklet, or customise to a client's particular needs.

An independent study in 2008 found that businesses using Site Safe's products and services have superior health and safety performance.
