Mike Flanagan	Independant	Richard Giddings	Always Soutlions
Nicki Leslie	2wildberries	Richard Willis	Four Peaks
Billie Watmuff	2wildberries	Jo Grigg	CCC
Alison Molloy	Site Safe CE		

Minutes

1. Introductions
2. Thanks to Site Safe for breakfast
3. Thanks to BCITO for providing venue
4. Nathan Dougherty ECan: Re capped on his previous presentation and the concerns of ECan senior managers about the poor sediment control in the city. Nathan is available to give guidance to people who need some direction. In addition, he is happy to go and speak to offenders of poor sediment control. Nathan can be contacted on nathan.dougherty@ecan.govt.nz
5. Jill Williamson gave ACC update: She showed the ¼ ly ACC dashboard. The contents of her discussion are on the attached PDF
6. Steve Moran gave WorkSafe NZ (WSNZ) update: Steve mentioned about the number of workplace fatalities in NZ. Around 30 already for the year. Steve also touched on the following
 - Next SLG Steve will talk about Trends and Causations
 - Work Safe are planning for next year. They have different business units and they are all doing planning. Looking at Inspectors going to the right place at the right time for the right reason
 - WSNA are working with LMSO,s (Large Multi-Site Organisations) One of the items being looked at is ensuring that enforcement is more conformed
 - Looking at why some larger firms have great H&S systems but are having large number of injuries
 - Time Reduction Action plan-working with ACC. Work in progress

Steve also touched on some of the questions received from SLG attendees.

- Electrical Test and Tag. There is no legal requirement for test and tag in accordance with AS/NZS 3760 to be used at home or at work. For a full overview please read the following <http://www.energysafety.govt.nz/appliances-fittings/electrical-appliances-fittings/operational-safety/test-tag-regime>
Remember any PCBU can request than anyone coming to their site require all electrical items be test and tagged
- Infringements. Fines are like a speeding ticket, does not record a criminal conviction. However if the incident goes to court there could be a criminal conviction then
- Health monitoring. Labour Hire companies. Base line testing is not always practicable If the worker was going to stay with the Labour hire company for 3 months then yes. If they move to another company, it would be that PCBUs responsibility.

- Training/Brain works around culture: WSNZ using TV, Radio....Who are work safe? WSNZ are getting the message out there, about whom they are. Attitude towards WSNZ is changing
- Asbestos Surveys. This area requires some expert knowledge for the discussion. Nick Jones from WSNZ to present at the next SLG

Remember to visit the WSNZ web site for any information you need about the above

<http://www.worksafe.govt.nz/worksafe/>

7. Mark Freeborn gave a small presentation on Site Wise and the new Flexi Passport. Please visit the Site Safe web site for further information <https://www.sitesafe.org.nz/>
8. General Business
9. Breakfast sponsor for next meeting is **Innovative Ceiling Systems**
10. Next meeting is **17th August 2017** at the BCITO
