Minutes

1. Introductions
2. Congratulations to Dave McBeth as the new Southern Regional Manager for Site SAFE
3. Thanks to Lindsay Mantell for his service to the SLG over the years
4. Thanks to BCITO for breakfast
5. Thanks to Site Safe for providing venue
6. Jill Williamson ACC

ACC Co-investment grant trial

Through ACC's conversations with businesses, they have learnt more about the barriers that can get in the way of making health and safety improvements. Therefore, as part of ACC's commitment to helping businesses more effectively, they are trialing a new approach to reduce these barriers. The trial includes a capped 50% co-investment grant towards approved training. Small-medium construction businesses in Canterbury, Northland, Waikato and Bay of Plenty have been invited to take part in the trial.

The health sector is also part of the trial. They are being offered a capped 50% co-investment grant towards approved equipment solutions. Healthcare and social assistance businesses based in Auckland, Wellington, Manawatu/Whanganui and Southland have been invited to take part in the trial.

ACC's intention is to start rolling out this approach in 2018. For more information about the trial and next steps, go to www.acc.co.nz/co-investment-trial

7. Nathan Dougherty ECan
Nathan discussed briefly the following
 - Dust. Look after your neighbors and ensure that you are controlling dust from sites
 - Dewatering. When dewatering on site, if you are dewatering into the storm water that they has been filtered sufficiently for this to happen

- Nathan had some positive news about a major construction company he has been working with and their keenness to actively work with ECan re major environmental issues.
- Make sure that you all secure your sites over Xmas and that all Hazardous substances are secured accordingly.
- In addition ensure that all sediment controls are in place

ECan have some great resources and Nathan is happy to come to site and assist with any education required

8. Steve Moran from Work Safe spoke briefly about the following
 - The new web site is up and running. Pop on and have a look
 - If you find any hiccups, bugs etc. please advise Work Safe via the web site contacts
 - The new Hazardous Substances Regulations 2017 are out. Lyn Osmars from Work Safe will be presenting on the new regulations at the next SLG in February
 - Good to see the Media covering Health and Safety non-compliant items such as the workers unsafe acts at the new water bottling plant at Belfast. Work Safe have visited the site
9. Nick Jones from Work Safe presented on Asbestos Management plans. His PPP is attached to the email that these minutes arrived with
10. General Business
 - A call out was made for suitable people from a construction company to Chair the SLG going forward. Dougal Homes from Maiden Construction has been put forward. If you have any other suggestions please let Kelvin know and we will discuss at the next SLG
 - A call out for a suitable location for the future SLG meetings was made, and a number of locations were offered. It has been decided to take up ARA on their offer of the meeting room at their Sullivan Ave campus. (Thanks Mike Flanagan for arranging) There is a Site map for the campus showing room location and car parking, attached to the email these minutes arrived with.
11. Next meeting is 15th February 2018, Location: Ara Campus Sullivan Ave, Clayton Suckling from Leed Safe has offered to sponsor breakfast
