

Fact sheet

The Continued Professional Development (CPD) Forum is the best way to stay up-to-date with health and safety changes within the construction industry.

The CPD Forum is a four-hour face-to-face session that enables you to get together with other graduates from your region and drive health and safety improvements within your own organisation.

An experienced Site Safe Facilitator will facilitate the discussions during the session around relevant health and safety topics.

Target Audience

These Continued Professional Development (CPD) Forums are for graduates of the Health and Safety in Construction Programme or the previous Certificate in Construction Site Safety.

How you will be assessed

The CPD Forum does not have an assessment.

What the session covers

The forum has the following high-level topics:

- › Health and safety innovations happening in the construction industry.
- › HSWA 2015 Legislation and related regulations.
- › Health and wellbeing hazards, risks and controls.

Language requirements

To get the most out of this forum, participants must be able to read and understand conversational English.

What you'll get at the end of the course

Site Safety Card (valid for two years) – renewal only.

Next learning steps

Site Safe offers a range of one and two-day courses which are routinely updated. We encourage you to attend these courses or another CPD Forum to build on the learning you have already achieved.
