

## RISK MANAGEMENT >>

8 **CERTIFICATE CREDITS**

This course is targeted towards any experienced onsite or offsite workers looking to increase their knowledge and skills regarding the management of workplace risk and health and safety culture.

### What the session covers

This course enables businesses to manage their health and safety risks as required by New Zealand Health and Safety Regulations.

- Using ISO 31000 and New Zealand Health and Safety Legislation as a guide, learners consider the key principles of Risk Management practicing and applying Risk Management processes to their own workplace.
- Long term cultural and behavioral change theory is applied with learner's examining the external and internal drivers of risk that impact on both their own and their company's ability to meet objectives.
- Learners learn how to access and apply the requirements of current New Zealand legislation and WorkSafe New Zealand guidelines, this includes both scenario-based learning and applying legislation to learner's workplace experiences.
- Creation of a formal risk management process that applies specifically to the business or workplace.
- Learners will also review some of the common risk management methodologies in use to determine the best one to use for specific situations.
- Applying recognised Risk Management process to evaluate and identify opportunities to improve a company's risk management framework, learners contribute to improving workers and contractor's performance, increasing worker wellbeing and helping to build a strong and equitable health and safety culture within their workplace and as part of wider sector priorities.

### How you will be assessed

You will need to complete and submit a take home assignment within 3 months of attending the course.

### Language requirements

To complete this course successfully, learners must be able to read and understand conversational English. If you are not comfortable with English comprehension or need assistance in choosing the right course for you, please contact us.
