

SITE SAFE ADVISOR SERVICES

Providing construction workplace professional health and safety advisory assistance – consultancy, auditing, and training.

Site Safe's team of experienced professional health and safety advisor consultants are dedicated to workplace accident reduction, raising health and safety awareness and business performance.

A specialist consultancy service provides clients with advice on many aspects of construction workplace safety, including the design and implementation of health and safety management systems.

With a significant depth and experience working in a diverse range of industries and a wide variety of health and safety related functions, Site Safe Advisors are well positioned to handle projects with consistency and efficiency. Business assistance can be provided on an informal, one-off basis or on an ongoing arrangement – no project is too large or too small.

Site Safe does not compromise on quality and performance, and is an industry leader in construction workplace health and safety, education and engagement.

Consultancy profiles on the Site Safe Advisor team are available at www.sitesafe.org.nz
