

COVID-19 BACK TO WORK MENTAL HEALTH PROTOCOLS

FEELINGS AND EMOTIONS

Feeling stressed is an experience that you and many of your MATES are likely going through.

It is normal to be feeling this way in the current situation.

Stress and the feelings associated with it are by no means a reflection that you cannot do your job or that you are weak.

Recognise where you are sitting with your emotions and take some time to stay focused on the now.

Consider if your emotions are more extreme than usual and if so, you might need some further support.

WELLBEING

Managing your stress and wellbeing during this time is as crucial as:

- Looking after your physical health.
- Take care of your everyday needs and ensure rest and time out during work or after work, eat healthy, engage in physical activity, and stay in contact with family and friends.
- Continue to use the self-care strategies that you know work for you.
- Consider your wellbeing bucket – you will need to fill it up as it will feel empty at times.

CHANGES IN BEHAVIOUR

There could be changes that you or a MATE might be showing. These are not one-off incidences but are happening more often than usual.

Are they:

- Angry or agitated
- Isolating themselves
“Not wanting to talk to people”
- Using alcohol or drugs as a way of coping
- Being distant
“Not replying to messages”
- Finding it hard to cope with everyday things
- Not looking after themselves, washing, looking unkempt
- Struggling to concentrate
- Struggling to finish work
- Coming into work late or being absent a lot
