Tips for completing your application:

- Please complete this application electronically. However, if you would prefer to complete the application by hand, please write clearly.
- Read each question carefully and answer as much as you can. If there isn't enough room on the page, attaching the answer as a separate piece of paper is fine.
- Don't skip questions that you think don't apply to you – if you can't answer a question, write why. If you are applying as an individual or sole trader, indicate this at the start of the application, and leave the Employer Section blank.
- Double check you have attached all the information we've asked for.

If you wish to complete your application through some other format, such as audio or video, or with the assistance of someone else – please contact us to discuss how you can submit your application.

Evidence to Support Application:

You can attach supporting application information if you wish. Examples of evidence may include emails of recommendation, photographs at work or in your community, CVs, stories of personal achievement, links to video footage on LinkedIn/YouTube/Facebook/Instagram, etc...

The Employer Section:

The employer section is to be completed by your employer (if applicable). This is to confirm your employer will support you throughout the scholarship and allow the required time and resourcing to complete the programme.

Assessment timeline:

Scholarship applications open from 1 September 2022, and close on 31 October 2021.
The assessment process takes four working weeks, and we'll notify applicants in December.
